EDUCATION

Kamla Nehru Institute of Technology

B.Tech in Electronics Engineering

2021 – 2025

CGPA: 7.58

EXPERIENCE

Junior Salesforce Developer — 360 Degree Cloud Technologies

September 2025 – Present

- Developed and customized Salesforce applications using Apex, LWC, SOQL, Flows, and Validation Rules based on business requirements.
- Built and maintained custom objects, automation, reports, dashboards, and security configurations (Profiles, Permission Sets, Sharing Rules).
- Integrated external systems using REST APIs and assisted in debugging, testing, deployment, and production.
- Collaborated with senior developers, QA teams, and stakeholders in Agile-based project development.

Data Scientist Intern — Intell AI

June 2024 – August 2024

- Worked on AI and computer vision projects for object detection and automation use-cases.
- Improved model accuracy by 15% through data preprocessing and model optimization.
- Automated evaluation pipelines using Python and Docker, reducing manual effort by 30%.

TECHNICAL SKILLS

- **Salesforce:** Apex, SOQL, SOSL, Salesforce Administration, Custom MetadataType, Flows, Workflow Rules, Validation Rules, Security, LWC, Asynchronous Apex, Integration, Sales Cloud, Lightning App Builder
- **Programming Languages:** JavaScript, Python, C++, HTML, CSS
- **Frameworks & Libraries:** ReactJS, NodeJS, ExpressJS, Tailwind CSS, Bootstrap
- **Databases & Cloud:** MongoDB, SQL, AWS, Docker, Vercel
- **Tools & Concepts:** Git/GitHub, Postman, JWT, Socket.IO, REST APIs, OOPS, DBMS, DSA, Gen AI, LLM

PROJECTS

Study Notion ([View](#))

- Built a full-stack ed-tech platform using the MERN stack for course browsing, purchasing, and learning.
- Developed features like instructor dashboard, analytics, course creation, and progress tracking.
- Integrated Razorpay payment gateway for secure transactions and checkout flow.
- Improved user engagement through responsive UI and interactive learning features.

AI Interview Preparation Platform

- Built an AI-powered interview preparation platform on Salesforce using Lightning Web Components (LWC), Apex, Flows, SOQL, and REST API integration.
- Developed features for resume and job description upload, where AI extracts candidate skills, performs resume-to-JD matching, and generates personalized interview questions.
- Implemented AI-powered mock interviews with automated answer evaluation, feedback, strengths, weaknesses analysis, and personalized learning recommendations.
- Designed an enterprise-grade solution using Named Credentials, Asynchronous Apex, Salesforce Files, Reports, Dashboards, Permission Sets, and secure API integrations to deliver a scalable and secure user experience.

POSITIONS OF RESPONSIBILITY

- **Training and Placement Representative** — Career Development Cell, KNIT
- **Joint Secretary** — Sports Council, KNIT
- **Girls Captain** — Volleyball Team, KNIT
